

400 Persons Perish In Large Tidal Wave

WORLD COURT IS PRETEXT IN POLITICAL WAR

"Irreconcilables Using It To
Gum Harding Renomina-
tion," Says Lawrence

By DAVID LAWRENCE
Copyright 1923 by The Post Pub. Co.
Washington—Just why the question
of America's joining the world court
should become an issue at this par-
ticular moment is the biggest puzzle
of the hour to the administration it
self.

The talk of a break in the ranks of
the Republican party is not mere talk.
It has a basis and there is more go-
ing on under the surface than can be
discerned by the naked eye of an ob-
servant public. For the truth is the
merits of the world court problem
are not the real issue at all—it is
merely the vehicle for the expression
of dissenting views by those who are
anxious to prevent the renomination
of President Harding by the Republi-
can National convention.

ASPIRANTS ACTIVE

In the so-called "irreconcilable" el-
ement in the American senate are sev-
eral aspirants for the presidency or
honorific of would-be candidates.
They have not taken kindly to the
Daugherty prediction of no opposition
to Mr. Harding's renomination. They
are not exclusively fond of Messrs.
Hughes and Hoover who, from the be-
ginning, have leaned toward the
League of Nations side of the argu-
ment on foreign policy and they are
not overjoyed at the prospect of see-
ing Secretaries Hoover and Hughes
going around the country reflecting
the administration on so political a
subject as international affairs.

Secretary Hoover just made a speech at Des Moines
on the world court and Secretary Hughes
is about to fire an opening gun, so to
speak, on the project which was sub-
mitted in the closing hours of the last
session of congress.

MAY LEAP ISSUE ALONE

So the answer to the puzzle is not
to be found in the administration's
projection of the issue at this moment
but in the line of attack taken by the
opponents of the project who have
nothing else of a concrete character
on which to invite the Harding ad-
ministration into the controversial
lists. If the president doesn't take up
the challenge and let the world court
matter slumber till next congress he
will take away from his opponents
their main hope for publicity at this
time. Some of the president's ad-
visers have told him that and have also
pointed out to him that he ought to
make the only move that will put the
world court on his forthcoming west-
ern trip. To go up and down the
country affirming and reaffirming his
stand on the world court, it is con-
tended, would only be a confession of
weakness and diversion of the public's
attention from the main things Mr.
Harding has to say.

WATSON DISAPPOINTED

Senator James Watson of Indiana,
Republican, is known to have been
somewhat disappointed that the presi-
dent picked Harry New to be postmas-
ter general, disappointed because he
was on the opposite side of the fence
in Indiana politics and it looked,
therefore, like a wallop at Watson.
Others who may not care much about
the world court itself are bound to
use the discussion as something to
pick on politically. That's why the
administration is being urged to let
the matter drop after Secretary
Hughes has his say and do no more
about it till the senate meets in De-
cember when enough votes can be
mustered to dispose of the issue.

This is all predicated on the assump-
tion that the extensive opponents of
the court will find the controversy sub-
siding. If they do not, the administra-
tion will find the true character of the
opposition to be political and some of
the friends of the administration are
saying it will be the easiest way to
demonstrate why American membership
in the court is really being fought.

doubtedly continues as chairman of the

is believed to be large.

UNCOVER PLOT BY IRISH TO WRECK LONDON

Rebels Planned To Free Erin
Prisoners, Charges Scot-
land Yard

London—Documents revealing plots
involving the destruction of life and
property are reported to have come
into possession of Scotland Yard as
the result of Friday night raid on
the residences of resorts of Irish men
or women suspected of being Republi-
can supporters.

Among the plans said to have been
revealed were plots to attack Lon-
don's lighting power sources, the un-
derground power station—efforts to
release Irish prisoners from London
prisons, and projected attempts on the
lives of high police officials.

It is stated that the plots had huge
ramifications in Great Britain and par-
ticularly in London and had reached
such a stage that a delay of a week
by the police might have resulted in
the scheme being put into operation.

Among the plans was one for at-
tacking police officers in their houses.
A prominent former cabinet minister
is declared to have been marked for
attack.

There was a well organized scheme
it is asserted to raid certain London
prison either for the purpose of dam-
aging it or for rescuing Irishmen de-
tained there. Irish prisoners also were
to be rescued from prison vans while
being conveyed through London.

Preparations had been made for
some sort of an attack on the old
Bailey court and the underground
power stations had all been marked
for destruction.

MINISTER WILL STUDY PAPYRI FROM TUT'S GRAVE

Omaha, Neb.—The Rev. Samuel A.
R. Meyer, D. D., Cambridge, Ohio,
Egyptologist who is attending the edu-
cational conference of the Episcopal
church Friday said he expected little
from papyri found in the Valley of
Kings at Luxor.

"In a few weeks," he said, "I hope
to be able to place photographic cop-
ies of such papyri as have been
found in Tutankhamun's tomb under
the microscope. Then it will be
found whether new light will be
thrown on history."

"I do not look for this result be-
cause usually the papyri in tombs
comprise portions of the book of the
dead," Dr. Meyer explained.

There is little ground for belief
that the ancient Egyptians placed
poisons in their tombs, he said.

WIFE BREAKS HIS NOSE THEN JUDGE FINES HIM

Cleveland—A broken nose, a cut
over the eye and several scalp wounds
received when his wife bit him with a
flat iron, and then a \$50 fine from
Judge Miller was the extent of the luck
of Emmanuel Dwyer this Friday, the
thirteenth.

Dwyer appeared in court swathed in
bandages. His wife displayed black-
ened eyes and a swollen face.

POWERS PLAN TO MAKE RUHR PAY ALL BILLS

France And Belgium Decide To
Reimburse Self First With
Merchandise

By Associated Press
Paris—The French and Belgian gov-
ernments decided Saturday at the con-
ference of their ministers here to re-
imburse themselves for the Ruhr oc-
cupation expenses out of merchandise
and money seized from the Germans.
The two Allies again emphasized their
determination to evacuate the Ruhr
only as Germany pays. Any balance
left after the military and engineering
expenses are paid will be turned into
the reparation fund for the benefit of
all the allies.

The merchandise seized will first all
be placed on orders already placed
with Germany under the reparations
schedule for German payment in kind.
The French and Belgians filling their
own orders by compulsion if neces-
sary.

Once these individual reparation or-
ders are filled the seized merchandise
will be sold under joint Franco-Bel-
gian control and the proceeds will be
used with confiscated money cash ob-
tained from fines and other receipts
to pay the expenses of the occupying
forces as prior claims, only the sur-
plus going to the reparation commis-
sion.

Premier Poincare and Foreign Minister
Jaspard of Belgium with their ad-
visers, approved new instructions to
General Degoutte, commanding in the
Ruhr, outlining the development of
the policy of seizures of coal, coke,
merchandise and money and the estab-
lishment of an accounting system for
the distributing of the resulting fund.

The announcement that the two Al-
lies were steadfast in their decision
to leave the Ruhr only as Germany
pays came in the form of a reaffirma-
tion of the resolution to that effect
adopted in Brussels last month.

HOOVER PREDICTS HEAVY RAIL TRAFFIC

Asks Commercial Organizations
To Cooperate And Avoid
Congestion

By Associated Press
Washington—Commercial organiza-
tions were asked by Secretary Hoover
Saturday to cooperate with railroad
managements in a national effort to
set the large volume of railroad traf-
fic, expected during 1923, handled ex-
pediently and without congestion.

Pointing out that railroads have
made heavy investments in increasing
facilities and equipment in a letter to
various trade bodies, Mr. Hoover de-
clared that it was vital that shippers
assist by taking in winter coal sup-
plies during the summer, by loading
acres to capacity, and by reducing car
reconignment and refraining from
demanding excess car supplies in op-
erations.

RIDICULES IDEA OF \$1. PER GALLON GASOLINE

LaCrosse—In an address here Sat-
urday, Col. Robert W. Stewart, Chi-
cago, chairman of the board of direc-
tors of the Standard Oil company of
Indiana, declared that the talk about
\$1 gasoline was "preposterous and ri-
diculous."

"The program decided on further pro-
vides that if the government finds it
self unable to sell the ships and lines
without 'unjustifiable sacrifice' the
policy then will be to proceed to direct
government operation."

WOMEN VOTERS REFUSE TO INDORSE NATION'S LEAGUE

By Associated Press
Des Moines, Ia.—Efforts to insert
indorsement of the League of Nations
in the war prevention resolution of
the National League of Women Vet-
erans at the fourth annual convention
failed Saturday for lack of a second
to the motion made by Mrs. Blanche
McKelvey, of Omaha, who declared
that she was inspired to offer the sub-
stitution by Lord Robert Cecil's ad-
dress of Friday night.

The proceedings will be conducted
before Circuit Judge Harry J. Tinge-
man of Detroit, presiding circuit
judge for the state, he announced.

Bride Has 65 Gowns But Trousseau Isn't Complete

By Associated Press
London—When Lady Elizabeth
Bowes-Lyon takes up her abode with
the Duke of York after the wedding
on April 26, she will have one of the
most sumptuous wardrobes in the
world as well as a wealth of priceless
jewels and enough furniture and gifts to
fill a dozen homes.

Modistes of New York, Paris, Lon-
don, Rome and even far off Australia
are contributing their skill in the
creation of the brides trousseau which
some persons say is richer than that
which was prepared for Princess
Mary. The future duchess already has
65 gowns and an endless variety of
tea, evening and sports frocks, as
well as numberless furs and hats.

SOME CLOCK, THIS

Most unusual of all the presents, is
a remarkable clock which in addition
to showing the hours, minutes and
seconds in the usual way, also indi-
cates the day of the week and of the
month and the phases of the moon.
After striking each hour it plays a
march. On the dial is a representa-
tion of Whitehall while figures of the
king, queen and all the members of
the royal family pass around in a gay
possession.

As becomes a Scottish clock, no
marches are played on Sunday, nor
is there a procession. The clock is
the gift of the city of Glasgow. It
was made in 1804 for King George
III.

HARDING DECIDES TO SELL SHIPS

Government, However, Will
Operate Lines If Prices
Are Too Low

By Associated Press
Washington—Decision was reached
by President Harding and members of
the shipping board at a two hour con-
ference Saturday to proceed at once
to the consolidation of the board's
foreign trade lines and then offer
these lines and ships for sale under
the authorization of the Merchant
Marine act of 1920, conditioned on
suitable guaranty of maintained serv-
ice.

The program decided on further pro-
vides that if the government finds it
self unable to sell the ships and lines
without "unjustifiable sacrifice" the
policy then will be to proceed to direct
government operation.

WILSON VOICES HIS OPINION ON COURT

Philadelphia—Former President
Wilson is opposed to President Har-
ding's proposal for "conditional" Amer-
ican adhesion to the permanent court
of international justice, established at
The Hague under the auspices of the
League of Nations, the Philadelphia
Public Ledger says Saturday in a
copyrighted dispatch from Washing-
ton.

The dispatch said that Mr. Wilson's
first formal expression on international
affairs since the administration
submitted its plan to the senate Feb.
24 was embodied in a letter to Arthur
R. Brown of Kentucky, chairman of
the Democratic congressional cam-
paign committee in response to an in-
quiry.

The letter follows:
"In reply to your letter of March 23,
let me say that I approve not of the
'condition' but of the unconditional ad-
hesion of the United States to the
world court set up under the auspices
of the League of Nations though I
think it would be more consistent
with the fame of the United States for
candor and courage to become a mem-
ber of the League of Nations and
share with the other members the full
responsibility which its covenant in-
volves."

BATTLE FOUR HOURS ON CHESS BOARD TO DRAW

By Associated Press
Milwaukee—After four hours of in-
tense struggle in which 31 moves were
made and the outlay of stones indi-
cated that several more hours of
battle would be necessary before a de-
cision could possibly be reached, the
eighth game of the national chess
championship match between Frank
Marshall, champion and Edward Las-
ker, challenger, was declared a draw
Friday night when the latter player
refused to end the game in that way.

CADET CORPS IS TARGET OF HEARING

Charge Students Were Coerced
To Support Military
Training

Madison—Assertions that students
at the University of Wisconsin were
being inspired with a military spirit
and were being coerced to support the
university cadet corps, culminated in
a hearing before the assembly commit-
tee on public welfare and the senate
education and public welfare commit-
tee Friday afternoon when the Sach-
tenbach bill to make military training op-
tional at the university was discussed.

While Assemblyman Sachtenbach, rep-
resentative of the League of Progressive
Women and some students favored
the bill and charged the university
with trying to foist militarism on the
young men, President E. A. Birge, As-
semblyman Perry, and a number of
students defended the cadet corps and
answered the assertions of its oppo-
nents.

Assemblyman Sachtenbach, author of
the bill told of his experiences as a
student soldier and declared that he
was sure students and state would
profit more by having the young men
work on highways or on farms rather
than spending their time drilling.
Students described how members of
the cadet corps at the university
had been coerced into signing a petition
for continuance of military training.

President Birge described the history
of the cadet corps at the university
and explained the state's obligation
to the federal government under the
Morrell land grant act. He said
that he did not believe the state could
fulfill that obligation by having volun-
tary training. A petition signed by
925 students favoring drill, was intro-
duced.

The committee will meet again
next Wednesday when it is expected
to recommend the bill to the assembly
either for passage or for indefinite
postponement.

THREE SHOT IN PAYROLL ROBBERY

Detroit—William Bohn, employment
manager of the Charles Bohn Foundry
Co. and William Weasley, a clerk
employed by the company, were shot
Saturday afternoon during a pistol bat-
tle with four bandits who attempted
to rob them of a payroll of \$11,800.
One of the bandits also is known to
have been shot. A man identified as
one of them was picked up in Weitzel
shortly afterwards with three bul-
let wounds. At the hospital, where
the wounded men were taken their
condition was described as serious.

HOST PULLED HIS LEG AND THREW IT AFTER HIM

Chicago—Almost anyone objects to
having his "leg pulled," but when the
member in question is a wooden one,
and you are not only pulling it, but
pulling it off, heat you over the head
with it and then throw you out and
your leg after you, it is too much.

Walter Witke, minus about three
inches of his artificial limb, lost in the
fray, rises up as best he can to tell
the well known world it is Witke
limped into Judge Schwab's court to
demand a warrant for Andrew Lebach
and wife, Tekla. Disorderly conduct
was the charge preferred.

"I just dropped in to pay a friendly
visit, judge," said Witke. "I don't
remember how the thing started, but
the first thing I knew I found myself
in the street, with my leg flying after
me."

"Yes, your honor," he admitted, on
questioning, "some liquor was had by
all."

WANT MANUFACTURERS AND FARMERS TO GET TOGETHER

Milwaukee—A move to bring the
farmers and manufacturing interests
of the state into closer cooperation
will be made soon when the local as-
sociation of commerce will invite
farmers and rural representatives to
confer with manufacturers in this
city.

Former Governor E. L. Phillips, new
president of the association has ap-
pointed a committee to arrange for
the meeting.

"This is not a political move," said
Mr. Phillips. "We do not care whether
the visitors are Republicans, Demo-
crats or to what party they may be-
long. Our object is to create a spirit
of friendship and understanding be-
tween the dirt farmer and the manu-
facturer."

PACKERS RAISE PAY OF 20,000 MEAT WORKERS

Vacation With Pay And Over-
time Is Provided By "In-
dustrial Assemblies"

By Associated Press
Chicago—"Industrial democracies,"
in the "big five" packing plants of the
country have been restored directly
to \$0.0000 workers—and indirectly to
120,000 more—the 10 per cent of their
wages which the same plant legislature
took away in November, 1921.

Announcement Friday night that
the plant assemblies had voted the big
pay increase marks the second big
step by these organizations instituted
by the packers as an alternative for
industrial unionism.

WORK QUICKLY

The action of the packing house
councils followed negotiations so
quietly conducted that the first public
intimation of an upward readjustment
of wages was the announcement that
it had been made. The five companies
directly affected—Armour, with the
Morris & Co. plants it recently pur-
chased; Swift, Wilson and Cudahy—
employ 50,000 workers. Independent
companies and subsidiaries which are
expected to follow suit as the "Big
Five" set the wage standard, will
bring in another 120,000 men and wom-
en.

GET VACATION AND PAY

In addition to the average increase
of 10 per cent in wages, the plant as-
semblies also agreed on vacations with
full pay or extra pay at the usual rate
if the worker chooses to remain at
work during the vacation period. The
wage scale is based on a 54 hour
week, with overtime after ten hours
in any one day to be paid for at the
rate of time and a half. The 40 hour
week guarantee is continued and
double pay promised for Sundays and
holidays.

The increases will add more than \$2-
500,000 yearly to the payroll of Armour
& Company with its 35,000 workers.
Swift & Company announced 6,000
employees here and 25,000 in other
parts of the country will benefit.

BUSINESS WOMEN TO MEET IN RACINE

Gathering Of Federation Of
Professional Clubs To Take
Place May 25 And 26

Milwaukee—The eyes of Wisconsin
women will be focused on Racine on
May 25 and 26 when the third annual
convention of The State Federation of
Business and Professional Women's
clubs will be held at the city.

At that time efforts will be con-
centrated on increasing the number of
individual business and professional
women's clubs in the state. Wisconsin
is backward, federation officials
declare, having in the state only eight
really established clubs, although the
ground work for the building of or-
ganizations in other cities has been
laid.

Cities in which clubs are established
and from which delegates will be sent
include Milwaukee, Racine, Madison,
LaCrosse, Baraboo, Neenah, Wausau
and Oshkosh. At the same time there
are said to be dozens of cities where
women are engaged in active business.

Officers of the state federation in-
clude: President, Alma Barry, Milwau-
kee; first vice president, Mrs. L. M.
Barringer, Baraboo; second vice pre-
sident, Mrs. Fannie M. Steve, Madison;
secretary, Estelle J. Glass, Racine;
treasurer, Miss J. Mayne, De Pere;
auditors, Margaret Olson, Beloit and
Madison; Mary B. Mooney, Wausau;
Louis D. Mason, Milwaukee; Laura M.
Johnson, Oshkosh; Annie A. Nunn,
Madison and Helen L. Blythe, Racine.

The principal speaker at the conven-
tion will be Mrs. Lena Lake Forrest,
president of the National Federation of
Business and Professional Women's
clubs.

PRIEST WHO SHOT RECTOR TO FACE COURT MONDAY

Kalamazoo, Mich.—The Rev. Father
Charles Dillon, who is held for the
shootings to death of his superior, the
Rev. Father Thomas J. O'Neill, parish
priest of St. Augustine, Catholic
church, will be arraigned in circuit
court here Monday.

Father Dillon persists in his desire
to be sent to states prison and resists
indications that he may have been
insane when he shot Father O'Neill as
he sat at the dinner table Thursday
evening.

There was no indication Saturday
that a sanity inquiry would be asked
by his attorney.

BLAINE SIGNS BILL FOR JURIES IN LABOR DISPUTES

Madison—A trial by jury in con-
troversies over labor disputes may hereafter be de-
manded by defendants in Wisconsin
as a result of Governor Blaine's sig-
nature Saturday to the Price bill
passed by the legislature. This is first
labor measure to be accepted by both
houses of the legislature and to be
signed by the governor.

Governor Blaine signed the Sach-
tenbach bill abolishing game wardens
from confiscating property of persons
caught violating the game laws of the
state.

OFFER DENNEY POST AS COACH AT LAWRENCE

High School Athletic Director Asked To Succeed McChesney

A. C. Denney, physical director and athletic coach of the Appleton high school was offered the post of physical director at Lawrence college, to succeed H. D. McChesney. It was announced Saturday by Dr. Samuel Plantz, president of the college.

The announcement that Coach Denney has been offered the athletic directorship came at 11 o'clock Saturday morning following a conference between Dr. Plantz and Denney. Signing of the contract it was understood, was deferred to Monday as Denney desired to take up the matter with the high school officials and the board of education.

BUCK IS SIGNED

Simultaneous with the announcement that Denney was offered the athletic directorship, Dr. Plantz officially confirmed the news that H. P. "Cub" Buck, has been signed to coach football for the Blue and White school. Buck was the line coach and assistant to Mr. McChesney for the last two years. Denney it is understood, will be in charge of all physical training in the school and will direct basketball and track activities. He will also work with Buck on the gridiron.

Efforts will be made to induce Denney to remain with the high school, it is understood. Principal Lee C. Rasey announced that Denney has already been given a salary increase for next year but the offer made by Lawrence was much larger.

MEETINGS TODAY

Two meetings to consider the matter are scheduled in the high school for Saturday afternoon. At 1:15 the teachers' committee of the board of education was to meet. Later the board of education was to hold its session and it is likely that the committee recommendations will be presented to the board.

Coach Denney, who came here from Neenah high school, established an enviable reputation as a coach in the short time that he is teaching since he graduated from a LaCrosse normal. His Appleton high school football team was regarded as one of the best in the state, and his basketball quintet went over even bigger. Denney believes in establishing a strong defensive team and work out his offense after he has completed the defense. This method, has worked out successfully for him in most instances.

Coach Denney admitted that he had been offered the Lawrence post but declined to say what he will do until he has conferred with the school officials and the board of education.

OHIO MAN TRYING TO LOCATE HIS LOST SON

Effort is being made by James Kinney of Bellaire, Ohio, to locate his son Robert Wilkinson Kinney who has been missing from Bellaire for eight years. A letter has been sent to the chamber of commerce here asking for any information which Appleton people might have on the young man.

The man was born in March, 1891, at Belmont, Ohio, but his address was Bellaire when he disappeared. He is five feet, eleven inches tall with blue eyes, light hair and weight about one hundred and sixty pounds. His father thinks he may have used the name of Wilkinson.

RUSSIA SEEKS MORE COAL

By Associated Press

Vladivostok — The Far Eastern Branch of the All Russia Geological Survey department has decided to make a complete survey, during the coming summer of all the mineral bearing regions of the Primoria. The first places to be surveyed will be coal fields of the upper Suchan district, the coal fields of upper and lower Sulfoan, and the iron deposits of the Sergievo district.

West Prach, Iowa—Secretary of commerce Herbert Hoover surprised the "home folks" by a visit to his birthplace here. He made a short talk to the residents, mostly reminiscences of his boyhood days spent here.

Old Building Has Signs From 50 Years Ago

In removing the brick veneer from the former Lohman building now owned by the Bretschneider Furniture company workmen Friday disclosed portions of a bill advertising for 1,000 men and 500 teams to work on the Milwaukee & Northern railroad which was built nearly 50 years ago. The contractors were Harrison & Green. The wages offered were \$2 a day for men and \$4 per team. Board and room could be secured for \$2.50 per week. Applicants were instructed to report at the Waverly house.

ARPS' TWO WILLS CAUSE OF CONTEST

The contest on the will of John Arps in which testimony was taken before Judge Rotensiek Friday has been continued until Tuesday, April 24. The contestants are the widow and a daughter, Mrs. Leona Vandenberg.

Mr. Arps made two wills one dated 1906 and the other 1916 and the contest concerns the one to be admitted to probate. The former will bequeathed the bulk of the property to the widow and daughter and under the latter will a son is made the beneficiary. Lonsdorf & Staidt represent the contestants and Keller & Keller the contestants.

DEPUTY HAD TO USE BOAT TO SERVE PAPERS

Attorney Fred V. Heinemann and Gordon Fish, who were at Black Creek Friday on business connected with the trial of a civil action before George Reil, justice of the peace, along Wolf river is beginning to overflow its banks and that in serving a subpoena Deputy Sheriff John Dey had to use a rowboat in getting to the home of the witness. Deep runs are worn in the ice on portions of the highway which makes traveling exceedingly difficult.

N. E. W. TEACHERS TO HOLD MEETING HERE DURING FALL

Convention Place Picked At Fond du Lac Meeting—Salaries Discussed

That Appleton will be the meeting place for the fall conference of the Northeast Teachers association was decided at the executive committee meeting of the association in Fond du Lac on Friday. The meeting was held at the same time that the meetings of the city superintendents of Wisconsin were meeting in Fond du Lac. T. W. Fairchild of Fond du Lac was in Appleton Saturday to see if necessary arrangements could be made for the convention.

The superintendents discussed salaries, pending legislation, English courses, reasons for failures in school and a number of other important matters of business. The discussion on salaries which included representatives from more than 50 cities showed that Eau Claire is the only place that has lowered its salary scale and that only three cities have failed to raise the scale.

REINKE & COURT TO BUILD AT ONCE

Reinke & Court, hardware dealers, will break ground next week for their new store building at the corner of Appleton and Harris-sts. It will be a 2-story structure, with attractive brick front.

A member of the firm previously announced that building would be deferred until later because the bids submitted by contractors were higher than expected, but workers now have been engaged to start the work. The new store will be almost opposite the present location at 709 Appleton-st.

HYDE CONTEST WON BY ROBERT PUGH

Robert Pugh, a junior at Appleton high school, won the Hyde declamatory contest at the high school on Friday evening with the selection, "Gentlemen, the King." Miss Dorothy Adair was awarded second place in the contest with the selection, "For Love of a Child."

Both young people have been prominent in dramatic and declamatory work at the high school. All of the contestants did unusually well, and the decision was not easy to make because of the excellence of the declamations. The judges included Miss Martha Chandler, J. P. Bannister and W. S. Ford. The coaching for the contest was done by Miss Ruth McKen-

To Our Patrons

It is a big undertaking from a financial point of view to bring a production of this kind to Appleton and offer it at the admission price of 35 cents.

In order to make a successful engagement, we ask your co-operation in attending shows at starting time—MATINEE at 2 P. M. EVENINGS at 6:30 and 9—Better attend Matinee if possible and avoid evening crowds. If it is your intention to attend early show at night make it a point to be in your seat at the opening. We will endeavor not to seat any late arrivals after the picture is started, which always is annoying to those who have to be interrupted.

For the benefit of our patrons who desire certain seats or intend coming in a group we have set aside the 630 show Monday for reserved seats only which may now be secured at the Box Office.

Personally I know that if our patrons will co-operate with me in this respect, a much more effective presentation will be given and you will appreciate the production to a greater extent by being seated at the start, furthermore this will give us more seats to handle the people attending the last show. We anticipate big crowds and your co-operation on the above will be to the benefit of your comfort as well as others.

Thank you.

\$312 IN WOMEN'S BUILDING FUND

Affiliated Organizations Are Remitting To Womens Club Treasury

According to the report from the treasurer of Appleton Womens club on Friday morning, there is now \$312.32 in the building fund of Appleton Womens club. This sum includes donations from the Fortnightly club, which organization gave \$50 in the fall, from the Appleton Girls club which has given \$37 and a recent donation of \$75 from the P. E. G. Sisterhood besides interest from Womens club funds and several small sums from club activities.

Some misunderstanding has arisen concerning the number of clubs which have already donated money toward the building fund. Several clubs have been reported by members to have voted sums for the larger club's building fund, but these are either being kept in the treasury of the donating club until they are needed or the officers of the club have not yet forwarded them to the treasurer of Appleton Womens club.

Since many clubs have already voted donations to the fund it is expected that these will be announced at the next regular meeting of the board of directors of the Appleton Womens club. No announcement of the funds has been made until the money is sent to the treasurer.

DROWNING CASE ON TRIAL IN JUNE

The trial of the case of Louise Smith vs. Outagamie co. in which the plaintiff has brought action against the county to recover \$10,000 for the death of her husband who was drowned in Duck creek in the town of Oneida, has been set for June 14. The plaintiff will be represented by Senator Timothy Burke of Green Bay and the defendant by John A. Lonsdorf, district attorney.

I SPIED TODAY

The Post-Crescent invites all its readers to write for the I Spied section and gives two free tickets to the Elgie theatre for every article published. "Making the I Spied Column" is one of the indoor sports of Appleton and has stirred up a lot of interest. Every item that has merit will be printed. The Post-Crescent wants interesting reports of interesting happenings that escape the attention of regularly employed reporters.

CLOWN LEADS PIG

Friday noon I spied a man dressed as a clown leading a little red pig up and down College-ave. A short time later I saw him in an automobile that was advertising cigars.

BAKER SAVES TIME

As I was passing a grocery store on Mead-st Friday morning just before seven o'clock, I saw a large tray of bread and bakery on the steps which was not more than a foot higher than the sidewalk. As the store was still closed, the baker evidently wanted to save an extra trip so he placed it on the steps, probably unaware of the existence of dogs or cats who appreciate this sort of carelessness more than the people do.

HE WHO LAUGHS LAST

As I was walking down State-st early Thursday morning I noticed two small boys playing with a cart in a big puddle of water. All of a sudden the cart hit a big stone and over went the boy in the cart. The other boy was having a good laugh, and saying, "You'll get a good whipping from your Mother," when suddenly he lost his balance and also got a good ducking.

HE WAS THIRSTY TOO

I spied a smart dog quench his thirst in Woolworths 10c store yesterday. Watching the people take a drink at the bubbler, he raised up and helped himself also, to the amusement of all who saw it.

DIDN'T SPILL ANY EITHER

While walking down Main street in Kimberly Thursday "I Spied" a man emptying ashes from the stove in a peculiar way. He had carried the stove out of doors evidently leaving his wife to hold the pipes until he returned. The stove being light, was easily carried.

M. C.

GLASS BETWEEN THEM

A plate glass window was all that kept our bulldog from a cat fight about 8 o'clock Saturday morning. The dog would go through anything to chase a cat and just as I got in front of Traas grocery store, two Col-

lege girls had stopped at the window to attract the attention of the small cat which had just walked into the sun. The dog saw the cat and the cat saw the dog. They both made a dash for each other and the window stopped them. If I hadn't called the dog off, there probably would have been a broken window.

M. D.

GOT BLACK EYE

Friday afternoon I was watching two young men play catch on Kimball street. One of them threw the ball to the other, and the throw went high. The other young man reached for the ball, but he misjudged the throw and the ball struck him on the wrist and glanced down and hit him in the eye. The result was a severely lacerated eye that demanded immediate medical attention. A few minutes later a few more young men came out of a nearby Fraternity house and they led the injured man down the street—to a doctor, presumably.

Wild Ducks Here

Wild ducks have been very numerous between Appleton and Kimberly this spring, particularly this week. Blue bills have lately made their appearance and at almost any hour or the day several flocks may be seen on the river. Due to the fact they have not been molested they are becoming very tame.

Railway Company Is Being Sued For Death Of George Burton, Switchman

The \$30,000 damage case of Martha Schultz, administratrix of the estate of George Burton, deceased, vs. Chicago & Northwestern Railway company will be called before Judge E. V. Werner and a jury in circuit court Monday April 30. Rooney & Grogan will represent the plaintiff and Samuel H. Cady of Milwaukee the defendant. Several days will be occupied in the trial of the action.

Burton was a switchman and resided at Kaukauna. According to the complaint he died on Nov. 4, 1922, from injuries received on April 26, 1922, in the railroad yards at Clintonville by coming in contact with an iron upright switch stand which the plaintiff alleges was located within 25 inches of the ladder of freight cars.

Will Grade Streets

A. E. McMahon of Neenah was in Appleton Friday taking levels of Parkway plat for the purpose of obtaining specifications for grading the streets to comply with the requirements of the city.

SAWDUST or SUGAR?

CAN you tell the difference between the best things to eat and ordinary food?

Musk melons can be fit for a king or taste like a raw pumpkin. Sweet corn can be tender or wooden. Little beets and carrots can be juicy or tough. Peas can melt in your mouth or be hard as bullets. Cucumbers, beans, radishes, lettuce, onions—all can be the best or the worst quality, depending on two things—on freshness and on whether the seed you plant has been carefully bred for quality.

Perfect freshness can be insured only by having your own garden—for superior quality plant Ferry's pure-bred Seeds. They have been developed by the largest and best equipped garden seed organization in the world. The finest parent plants are deliberately selected; the unfit are destroyed. Guesswork is eliminated.

If you can discriminate between the best and something not so good, have a garden of your own and plant Ferry's pure-bred Seeds. Ten cents per paper "at the store around the corner."

BOLENS POWER HOE AND LAWN MOWER TRACTOR

IT SEEDS---IT CULTIVATES---IT MOWS THE LAWN

The Bolens will do your seeding one, two, or three rows at a time, using standard makes of seeders.

It will cultivate one, two, or three rows at a time. On the cultivator carriage you can mount different kinds of tools including hoes, duckfoot cultivators, springteeth discs, three prong teeth, furrow openers, hilling blades, etc. The tools can be placed to suit any kind of a row. A tool control enables you to do close work in straight or crooked rows. The tool carriage pivots with the tractor. The Bolens has a differential drive so that the machine can be turned "about face" either in the middle or at the end of the row. Handles are offset so that while that machine is straddling the row the oper-

ator walks just beside the row. Arched axels enable the machine to straddle rows up to 20 inches high. Changes from seeder to cultivator or from cultivator to mower are made by means of snap hitches. It takes but a few moments to make these changes. There are no wrenches required.

The Tractor is powered by a 1 1/2 H. P. air cooled, 4 cycle motor.

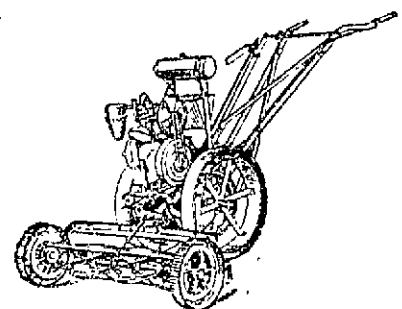

If you are a gardener, florist, light farmer, nurseryman, or if you have a considerable amount of cultivating to do this machine is indispensable. If you have a large lawn and garden the power hoe with mower and mower attachments is just the thing for you. For parks, cemeteries, in fact for any large lawn, the machine shown in small cut will pay for itself over and over.

The Bolens is indrised by all its users. We shall be pleased to refer you to users in this vicinity.

MUCH ADOO ABOUT NOTHING

As a result of the campaign in the Ninth district last fall when the Blaine administration was unable, after going to great extremes, to prevent Judge Henry Graass from standing as a candidate for congress, as he had a perfect legal and moral right to do, the assembly has passed and the senate has engrossed a bill making it a felony for a judge to seek other public office during the term for which he was elected. It is a novel piece of legislation, in that it attempts to do something which cannot be done and in that it is a reprisal of politics. The constitution of the state of Wisconsin, together with a statute on the subject, already forbids a judge from running for public office during the term for which he was elected. The present act supplements this by making a violation of the law a felony.

Since the constitution of the state and the law already on the statute books had no application to the candidacy of Judge Graass, it follows that the laws about to be enacted is of no force in such a case. Notwithstanding all the legislature may do, or the people themselves of Wisconsin might do in amending the constitution, both are powerless to prevent a judge in this state from becoming a candidate for an office, the qualifications of which are fixed by the constitution of the United States. That was the issue in the Graass candidacy and there was not the slightest question as to what was the law, otherwise a test case would have been made and legal interference to his candidacy interposed.

It will be recalled that Governor Blaine asserted during the campaign that when the election was over he would seek to have Judge Graass impeached. He knew he could do nothing of the kind and of course he did not attempt it. The motive back of this legislative enactment is solely personal and political. The pretended desire to safeguard the constitution and to keep the judiciary out of politics is camouflage. No such lofty purpose is in mind.

Every person is entitled to his own opinion about the propriety of a judge running for other public office, but that question is not involved. All that is involved is the legal right, and Judge Graass clearly had that legal right. Furthermore, if a judge of this state in the future desires to run for congress or the United States senate, or for the presidency, nothing the legislature can do can stop him. So far as the question of ethics goes, the present secretary of state, Mr. Hughes, became a candidate for president while he was a member of the United States supreme court. If our memory is correct, Senator LaFollette himself once induced a member of the judiciary of Wisconsin to run for a certain public office. The disturbance down at Madison over the Graass incident is much ado about nothing. The constitution and the laws already make it impossible for a judge in this state to run for an elective office of or within the state. In addition to disqualifying the judge who violates this law, a further penalty is now to be added. No change is made in the scope of the law so as to include federal offices, for that cannot be done.

COMFORT FOR TAXPAYERS

The treasury department has collected tables of federal tax rates assessed by the leading governments of Europe to console taxpayers of the United States. Our taxes, especially on small incomes, are the lowest. Statistics are of little comfort to those who pay part of their revenue to the government. As to taxes, there is no satisfaction in knowing that others are penalized, too. Citizens have an antipathy to taxpaying.

Nevertheless, it should be a pleasure to pay reasonable taxes. We have liberty and opportunity under our political system, and we should be glad to pay for them. And we should be sufficiently grateful for making and having money as to be willing to give a proportion towards maintaining conditions which enable us to be happy.

However, there is no reason to be happy over the indisputable fact that politicians waste millions of dollars of our money, and that we are paying for official extravagance. Federal and state government has become for hungry politicians a pasturage whose luxuriance never was even dreamed of by the politicians of bygone days. They revel in millions today with an ease and proprietorship that a couple of generations ago was foreign even to the spending of a few thousands. Taxation for waste and extravagance is a hard tax to pay in any form or amount.

FORD AND THE FARM

A biographer of Henry Ford says he believes the thing that will carry the Ford name down to posterity is not the acquisition of a billion dollars by paying better wages and selling automobiles for less than anybody else, nor yet his ability as an industrial organizer, nor even his pioneer work to stop the waste of water power, but his revolutionizing of agriculture.

Up to the present time, Ford has not wrought any visible revolution in farming, but the prophecy may yet come true. He maintains that the work on any farm can be done in 25 days a year. He bought a farm of 9,000,000 acres and runs it on the labor of 21 days a year. It will take a good while to get the average farmer up to the point of getting through in 25 days, but it is incontestable that since the advent of motor machinery many of the days formerly needed for plowing or harvest have been saved and turned into other channels.

Cyrus H. K. Curtis, publisher of one farm magazine and of two others sold largely on farms as well as elsewhere, agrees that the future of farming is an industry. It is certain, at least, that the next score of years will see great changes in agriculture.

TODAY'S POEM

By Berton Brasley

A GIFT

Give the kid a dog and you've furnished him a playmate.
Always true and faithful as can be:
Lover and companion, a loyal night and day mate,
Full of warm affection and of glee
Give the kid a dog, he'll adore it, bull or collie,
Ready for a romp or for a jog,
Tall forever winking in a manner that is jolly—
Give the kid a dog.

Give the kid a dog and you've surely given something
Valued more than figures can compute,
Friendship, love and service in the bosom of a
dumb thing.

Golden hearted glamor in a brute!
There's a guide and warder who will free your mind
of worry.
One with quick intelligence agog;
Be it mutt or champion, short haired breed or
furry—
Give the kid a dog!

THE UNREAL WASHINGTONIAN

There are many Americans in the provinces who have strange and somewhat incorrect ideas about the Washingtonian. Many think that every Washingtonian lives and moves in that peculiar sphere called "high society." He, the Washingtonian, eats many dinners in the middle of the day at the embassies and drinks champagne and smokes mostly cigars with the ambassadors. It must be so, because are not the Washingtonians and the ambassadors neighbors? One of the principal occupations of the Washingtonian is welcoming and hobnobbing with princes, premiers and even kings and queens who come a-visiting to Washington.

Generally, the Washingtonian spends his afternoon in the galleries of congress, or perhaps lounges on the benches in the chambers listening to the debates. After the Washingtonian has spent the afternoon in the galleries, he goes to the White House and takes supper with the president. How could it be otherwise? Warren is one of the folks and the Washingtonian and the president are neighbors. Perhaps after supper, if there are no ambassadors or high society high jinks to be attended to, the president goes over to the home of the Washingtonian and the two, and their families, engage in a game of casino, euchre and seven-up.

The Washingtonian is always on familiar terms with "our Congressman," and the two must get on famously together, because "our Congressman Jim" is such a sociable fellow!

The Washingtonian ought never to be in need of cash. Does he not live next door to the treasury, or on the same street, or certainly not far away, and ample money must be plentiful in such a place, as that?—WASHINGTON STAR.

Many of those "good mixers" the hotels used to employ in their barrooms have apparently been given jobs in the coat rooms.—BOSTON TRAVELER.

Health Talks

BY WILLIAM BRADY, M. D.
Noted Physician and Author
Dr. Brady will answer all signed letters pertaining to health. Writers' names never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

WHY CHILDREN SHOULD, IF ADULTS SHOULD

When anyone purporting to be a teacher or an authority on health undertakes to reconcile the teaching that fresh air is healthful with the admission that exposure to ordinary cold and wet, draft or sudden change is unsafe, the general effect as it seems to me, is rather droll, and brings to mind the thoughtless, nagging mother who had a habit of calling out frequently: "Johnny! Where are you—what are you doing? And stop it right away!"

I think adults have nothing whatever to gain by the use of the toothbrush as a toilet habit, and by the use of special direction of physician or dentist for a particular therapeutic purpose. At the same time I believe it is highly important that all children should brush their teeth carefully and painstakingly every day. Children have everything to gain by this practice—sound teeth. A child with sound primary or baby teeth is sure to have even, regular sound permanent teeth; there is no better asset for health or beauty than perfect teeth. This places upon me the obligation to reconcile these apparently inconsistent teachings.

Either I am weak in my conviction or I attribute other benefits than cleanliness to the practice of brushing the teeth.

That is it. Children are generally restricted more closely to ultra refined foods than adults are. Children are generally assumed to have feeble digestive powers, and hence to require careful preparation of their food if not partial predigestion of it. They should begin chewing things as soon as they cut their first teeth, but by custom and practice they are carefully prevented from making any real use of the baby teeth. Brushing, therefore, does in a poor way for the teeth and the gums what a natural diet and proper mastication would do well. Hence I say the children should give their teeth a thorough brushing daily or two or three times a day. If children in civilized environment were allowed and encouraged to use their temporary or primary teeth for masticating whole cereals, cracking nuts, gnawing on bones and the like, they would need to brush their teeth no more than calves or puppies do.

Bunion Removal

Does the removal of bunions weaken the feet?—Mrs. G. H.
Answer—It isn't quite accurate to speak of the removal of bunion. The operation for the cure of bunion does not weaken the feet.

Acute Indigestion

How to check acute indigestion before it goes too far. I first noticed symptoms after eating cucumbers and buttermilk. —C. D.

Answer—I first noticed symptoms after eating half a coconut and I don't remember what else. Checked it with good old ether and steel—that is, my doctor did. Advise you not to try to jolly yourself with that "indigestion" nonsense, but have the appendix or whatever it is out. You'll feel fine then. The cucumbers and buttermilk, or any other food, might have happened along just before the operation, but don't deduce from that coincidence that cucumbers and buttermilk are not good food. I take a whole coconut now, if I can get it.

Suet Dumplings

Nurse claims loss of nourishment in boiled suet dumplings. —E. A.
Answer—The claim is allowed. Hard to beat 'em for nourishment.

LOOKING BACKWARD

TWENTY-FIVE YEARS AGO

Saturday, April 16, 1898

Decidedly the most warlike step taken by the war department at Washington, D. C., in preparing for the possibility of an encounter with Spain was inaugurated the day previous when orders were issued for the concentration at four points in the south of six regiments of cavalry, twenty-two regiments of infantry and the light batteries of five regiments of artillery.

Misses Dora and Eva Strauss returned from an extended visit with Wausau friends. Former Sheriff Richard Conlon was appointed marshal of Kaukauna under the new administration.

Mrs. F. E. Worden's two children were sick with measles at the home of their grandparents, Mr. and Mrs. C. C. Wayland.

Capt. P. Donnelly of Dredge No. 2, took charge of his dredge at Kaukauna the first of the week and had since been engaged in removing the cofferdam at the fifth lock at Kaukauna which he built the previous fall to keep the water out of the lower level.

The drug firm of C. S. Little & Co. filled its one hundred thousandth prescription. The prescription was written by Dr. E. Stansbury and was for Mrs. F. W. B. Rahn.

The William Owen Company was to play a return engagement at the opera house on the evening of May 11 at which time it was to present "Faust." The Wisconsin Christian Endeavor union in session at Madison elected A. J. Löffingwell of Appleton as its president.

TEN YEARS AGO

Saturday, April 12, 1913

Dr. E. T. Rathert of Chilton called on Appleton friends.

The Rev. John Kaster of New London, formerly pastor of Sacred Heart church, was an Appleton visitor.

A daughter was born the night previous to Mr. and Mrs. Frank Alvord, State st.

Frank Buckland of Minneapolis was visiting his parents, Mr. and Mrs. C. S. Buckland.

Members of the Women's Relief corps were invited to Oaklawn on Tuesday, April 15, for a 12 o'clock dinner.

Frank Kamps, a well known Appleton young man and a student at St. Francis theological seminary, was to be ordained to the priesthood in Appleton on Thursday, May 1. The ordination ceremony was to be conducted by the Rt. Rev. Bishop J. J. Fox of Green Bay.

Fidelity Chapter No. 34, Order of the Eastern Star was to give a dance at the new Elk hall Monday, April 21.

Completely exhausted from starvation and unable to stand, Mrs. Emaline Pankhurst, militant leader, was released from Holloway jail, London, England, after serving nine days of her three years prison term imposed for instigating the attack on the country home of Chancellor of the Exchequer David Lloyd George.

G. W. Jones, J. G. Rosebush, O. P. Schlafer, James A. Wood, William A. Fannon, Frank S. Salliech, Theodore P. Stark, J. E. Voigt, E. R. Wages, Frank J. Harwood, G. E. Buchanan and William C. Jones were selected as directors at a meeting of nominating committee of the proposed J. M. C. A. at the office of Attorney C. G. Cannon.

Work Shines 'Em Up

BY HARRY HUNT
Washington—With cities and communities generally advocating "paint up, clean up" campaigns, Secretary of Interior Hubert Work falls into line and recommends that the employees of his department "shine up."
Whether Work believes "clothes make the man" we do not know. Apparently, however, he believes that glossy shoes not only add snap and finish to the wearer's appearance but by some subtle alchemy subdue latent "inferiority complexes."

Anyway, last week a guard found a colored bootblack making the rounds of Interior Department offices. He thought his duty was plain. He laid a heavy hand on the shine boy's shoulder and directed him to come along.

"Whuffo, captain, whuffo?" protested the booter. "Kain't yo' see I's shiny? I gotta shine lots o' gentlemen's shoes."

"Don't you know no peddlers, bootblacks or solicitors are permitted in this building?" demanded the officer. "Come along!"

"Dut—boss, wait!" said the youth, delving into a pocket. "I lead this year." And he passed over a paper bearing the letterhead of the secretary's office.

Briefly, it was an authorization, signed by the secretary himself, for the bootblack to see that no employee missed an opportunity to brace up his mind with a daily shoe-shine.

Incidentally, whether it is his shiny shoes that are responsible or not, Work is justifying his name by the way he is tearing into the musty archives of his department.

A few days ago he came across the fact that more than 100 claims for land, filed from 20 to 35 years ago, had never been finally acted on, the settlers being still without final titles and patents from the government. He ordered that all these entries be surveyed and cleaned up during this season. Then he said a few words about "offensive, unavoidably inefficient bureaucratic methods," naming no names but making his meaning quite clear.

Brig. Gen. Rufus A. Lane, adjutant and inspector of the U. S. Marine Corps, is the only officer of his rank in Washington who ascends to the use of the lowly flivver.

Usually army and navy officers, when they reach the major or commander stage, believe nothing less than high-powered, high-priced cars are in keeping with their official dignity. Flivvers, they infer, are for the non-coms or the second lieutenants.

Lane, however, having been brought up in the Fighting Marines, doesn't care to stand on ceremony when he goes. He prefers to be sure of going. Otherwise he might miss the fight. Therefore, he says, the flivver. The general also is his own chauffeur and to many a dignified admiral and fellow general does he give the merry go-by as he rattles past their luxurious limousines.

Boys from the ranks should find a sympathetic comrade in Brig. Gen. Frank T. Hines, the new head of the Veteran's Bureau. Hines is one of the new officers of general rank who came up from the grade of buck private, and he hasn't forgotten the buck private's viewpoint on things. Hines enlisted in Salt Lake City, Utah, at the outbreak of the Spanish-American War. He found soldiering to his taste, so when that affair was over he signed up with the regulars. He was a captain in 1917, when we declared war on Germany and is one of the few brigadier generals who have not been stepped down in grade since the armistice.

DO YOU EVER NOTICE TO WHOM HE TURNS WHEN HE GETS "UP AGAINST IT?"

You can tell the age of a tree by its bark—

but you can't tell the age of a Spring suite by its bite.

Travelling men tell us that there are millions of dollars worth of last Spring's clothes carried over—that are still carrying their original last year's price of \$50 to \$60.

The same suits went thru' two sales—they didn't sell—they went a begging.

Now they have put away their tin cups and are lying in wait AT REGULAR PRICES, and you don't want them AT ANY PRICE.

NO OLD SUITS HERE THIS SPRING—THE STOCK IS AS NEW AS A BABY'S FIRST TOOTH—YOU BROOK NO BRIDGE WORK AT SCHMIDT'S.

New Suits are \$25 to \$50

conditions have evidently much to do with the hardness of the potato seed grown in the North.

Q. Next to New York City, what city admits the greatest number of foreigners? E. L. R.

A. The port of entry admitting the greatest number of alien immigrants in 1922 outside of New York was San Francisco, other ports ranking as follows: Boston, Philadelphia, Baltimore.

Q. The title "Pope" always been confined to use by the head of the Church of Rome? B. F. A.

A. It has not. Pope (Greek: father) is a title applied by the eastern Christians to all priests, and in the West was originally given to all bishops, but it is now restricted to the bishop of Rome.

Q. What is the object of bond marks in paper and how is it done? M. E. F.

A. The bond or water marked paper was adopted by manufacturers to indicate their own make and to distinguish one kind of paper from another. It is made by shaping the wires of the dandy rolls or gauze wire cylinders, over which the paper passes while yet in a pulping condition.

Q. Who paid for the Egyptian obelisk that is now in Central Park, New York City? D. G. H.

A. It was brought over at the expense of Mr. W. H. Vanderbilt in 1880 in the ship "Desonny," under the direction of Lieut. Commander Goerings, U. S. N. The obelisk formerly adorned the Temple of Ra at Heliopolis. It arrived in New York July 21; the corner stone of the foundation was laid October 16; and the obelisk raised January, 1881.

Q. Which of the Presidents had March for a birth month? E. F. H.

A. There have been four. Madison was born on March 16; Jackson March 15; Tyler, March 23; and Cleveland, March 18.

Q. What besides gold is there in a ten dollar gold piece? C. H. W.

A. United States gold coins contain copper alloy. The alloy, however, neither adds to nor detracts from the value of the coins.

Q. What is the meaning of the Chinese name Fookien? K. D. Y.

A. This name is given to a province in China and means Happiness-Established.

Q. What is meant by cutting the Gordian knot? W. T. B.

A. In classical mythology, the Gordian knot was an intricate knot tied by Gordius, an oracle having declared that he who untied it should be master of Asia. Alexander the Great averted the ill omen of being unable to loosen it by cutting it with his sword.

Q. How do vitamins in peanuts, yeast cakes, and lean meat compare? C. N.

A. Of vitamin A, the peanut has little, yeast cakes and lean meat have none. Of vitamin B, the peanut has a fair amount, the yeast cake is rich in it, lean meat has little. Of vitamin C, the amount in peanuts is unknown, the yeast cake has none, lean meat has but little.

Q. What does P. P. C. in the lower left corner of a calling card sent through the mail mean? G. J.

A. The abbreviation P. P. C. stands for "Pour Prendre Conscience." It indicates that one is leaving town without an opportunity to make the call which he desires to make. Literally translated the phrase means "For to take leave."

Q. What is meant by Darwin's point on the ear? E. L.

A. This is a small irregularity on the human ear which Darwin believed corresponds to the tip of the ear of the ordinary mammal.

GOMPERS NOT OPPOSED
The following letter from Samuel Gompers relative to his attitude toward old age pensions, was submitted for publication by the Fraternal Order of Eagles:

"Mr. Frank E. Hering, Chairman, 'Old Age Pension Commission of the Grand Aerie.
"Fraternal Order of Eagles, South Peab, Indiana.
"Dear Sir:

"Your letter of February 19 received and contents noted.
"You call my attention to a newspaper statement which says:
"The American Federation of Labor is quietly organizing opposition to old age pension legislation proposed in Illinois, Pennsylvania, Texas, Colorado, Wisconsin, New Jersey and other States."
"There is absolutely no foundation for this statement. The American Federation of Labor is not quietly organizing opposition to old age pension legislation anywhere.
"At the Cincinnati convention of the American Federation of Labor, the Executive Council made a report on old age pensions. The Executive Council had made an investigation as to the power of the Congress passing an old age pension law. The convention endorsed the principle of the bill introduced in congress in 1909 by William B. Wilson, formerly Secretary of the United Mine Workers of America. The text of the bill you will find on page 143 of the Proceedings of the Cincinnati Convention, held June 12-24, 1922, a copy of which I understand you have.
"Very truly yours,
Sam Gompers,
President,
"American Federation of Labor."

TESTED RECIPES

FOOD LUXURIES
By Bertha E. Shapleigh

There comes a time, perhaps in April or May, or in some parts of the country, December and January, when the housewife in buying supplies is sorely tempted to buy what seems to her, unwise and possibly extravagant. There are vegetables and fruits which are a little out of season, and she longs to purchase a delicacy for the family.

There is, I think, a justification for such expenditure at times, and the wise woman will buy "pleasure" foods, and balance her budget by buying a cheaper cut of meat or a less expensive vegetable another day. If during the week a meal or two contain a surprise—a favorite dessert, or a cake or pie, an unusual salad, or a choice cut of meat, the housewife can keep her family satisfied and happy. It is the deadly monotony of food, no matter how good it may be, that we cannot stand without fussing.

Sometimes the color of strawberries are as appealing as the flavor. Who cannot be moved by the combination of strawberries, sugar, butter, hot biscuits and cream? In combination it is the "old fashioned" strawberry shortcake which some consider the only "real" one. Others are equally pleased with a cake filled with berries, and white on top, with beaten cream.

For breakfast or lunch on a warm spring day is there any dish more inviting than broiled shad roe on a bed of watercress?

Or some days there will be mushrooms in the market, cheap and good. One can make a meal of creamed mushrooms and a salad.

RASEY TO DISCUSS
STUDENT EVILS AT
PARENTS' MEETING

Fathers Association Wants All Heads Of Families At Gathering Monday

Officers of the Fathers association of Appleton high school are making every effort to get the father and mother of every pupil in high school into the high school auditorium for Monday night when Lee C. Rasey, principal of the school, will discuss conditions there with the parents. In anticipation of this meeting, Mr. Rasey prepared a questionnaire on several subjects which he wished to discuss with the parents and had the students fill it in.

With the aid of the replies to the questionnaire, Mr. Rasey will discuss the subject of students going out at night, their attitude toward their studies, their reasons for failing in courses and also their attitude toward honesty. The association feels that this is the first time that Appleton parents have been given a definite opportunity to meet the school problem together. Many parents have cooperated splendidly with the school administration, but at no time have all the parents gathered together to promote the best interests of their children.

Mr. Rasey will also give the address which he gave at the religious school program but because of the audience of fathers and mothers, he will include more things for them to think about. Members of the association are doing all they can to attract all of the parents to the school for Monday evening.

Busses Resume

Motorbus service to Hortonville and New London from Appleton has been resumed by the Inter-County Bus Line. The first trip was made Saturday morning and the busses now are operating on the usual schedule. Service also is in effect to Black Creek and Seymour, and to Dale, Fremont and Waupaca.

Walter Richter of Mount Vernon, N. Y., is in Appleton on business.

NO OPERATION
FOR HER

She Took Lydia E. Pinkham's Vegetable Compound and Escaped the Operation Doctor Advised

Louisville, Ky.—"I wish to thank you for what your medicine has done for me. I was in bed for eight or nine days every month and had a great deal of pain. The doctor said my only relief was an operation. I read of Lydia E. Pinkham's medicine and tried the Vegetable Compound and the Sanative Wash, and they surely did wonders for me. I feel fine all the time now, also am picking up in weight. I will tell any one that your medicines are wonderful, and you may publish my letter if you wish."—Mrs. Ed. BOHNLEIN, 1130 Ash St., Louisville, Ky.

Backache, nervousness, painful times, irregularity, tired and run-down feelings, are symptoms of female troubles. Lydia E. Pinkham's Vegetable Compound should be taken whenever there is reason to fear such troubles. It contains nothing that can injure, and tends to tone up and strengthen the organs concerned, so that they may work in a healthy, normal manner. Let it help you as it has thousands of others. It is now selling almost all over the world.

Celebration Is
Held To Honor
Golden Wedding

Mr. and Mrs. John Williams of Kimberly celebrated their golden wedding anniversary at their home. Music was furnished by the Kimberly band and high mass was held by the Rev. P. X. VanNistleroey. Mr. and Mrs. Williams were among the first settlers of the county and with the exception of one son all their 7 children, 21 grandchildren and one great grand child were present. Mr. Williams was one of the first trustees of the Holy Name church at Kimberly.

CLUB WANTS TO BORROW
BOWLING ALLEY GAMES

Members of sports council of Appleton Womens club are out slouching for 22 sets of bowling alley games, which were purchased in Appleton during the Christmas season. They are going to use the alleys in the Lazarar entertainment and are anxious to locate several more sets than they already have. Any one who happens to have one of these bowling alley games and who would lend it to the council for the bazaar would help the cause by telephoning the clubroom.

KIMBERLY MAN TO HAVE CHARGE OF HUGE LOG DRIVE

Crew Under Joseph Lochschmidt To Move Seven Million Feet Of Timber

Special to Post-Crescent
Kimberly—One of the most interesting and perhaps difficult tasks of the logging season in the northern woods has been entrusted to Joseph Lochschmidt of Kimberly, that of driving seven million feet of logs from Fred to the Oconto river. Mr. Lochschmidt has been foreman of a camp at Fred and is spending a few days with his mother here before engaging in this task.

The logs will be driven from Fred down a fast stream to Surin, and from that point to the Oconto river. The drive will be taken in charge at that point by employees of the Oconto Falls Lumber company, who will bring the vast mass of floating timber to its destination.

Mr. Lochschmidt found it necessary to search this locality for the "old-timers" of the earlier lumbering days who are familiar with the moving of miles of logs propelled by the river current. He managed to get most of his crew at Oshkosh, obtaining men who do nothing but drive logs during the spring and summer season.

Six motor trucks have been equipped to accompany the expedition and provide supplies for the crew.

Moving of the logs will require a number of days. Part of them are tied into rafts and the remainder float loosely between. The logger steers the rafts and the others follow in due course. They will require at least three or four days to pass a given point.

With the cessation of lumbering activities few log drives are seen in this part of the state. This was an annual sight on Wolf river some years ago but it is believed that none has occurred since 1914.

VISITS FRIENDS
Baer Fankuy, formerly of Kimberly and who has a general store in Black Creek, visited friends here.

Mr. and Mrs. William Flynn returned from Milwaukee where they have been visiting with relatives.

John Vanden Boegard, who attended the convention of the Metropolitan Life Insurance company at Milwaukee, returned Thursday evening.

CLOSE SCHOOL TO PROTECT PUPILS

Special to Post-Crescent
Stephensville—The public school here has been closed for two weeks to permit a thorough renovation as a protection to the pupils against diphtheria. This action was taken following the death of Gerhart Morack, 10, son of Mrs. Herman Morack. The child was taken ill while at school and his case was found to be virulent diphtheria. The teachers have gone to their homes. Mr. Miller to Kaukauna and Miss Jensen to Appleton.

Private funeral services were held Tuesday afternoon for the child. He is survived by his mother and two sisters, Helen, and Mrs. William Gieson of Plymouth.

EQUITY TO DEBATE TUBERCULIN TEST

Meeting Occurs At Black Creek Tonight—Oft-Company To Expand

Special to Post-Crescent
Black Creek—The American Society of Equity will hold a business meeting at the town hall Saturday evening, April 14. After the business meeting

a debate will be held, subject, "Resolved: That it will be for the benefit of the farmer to have all cattle in the county tuberculin tested." The public is invited to attend.

OIL COMPANY MEETS
The board of directors of Black Creek Equity Oil Co. held a special meeting at the Arlington hotel Tuesday beginning at 10 o'clock and lasting all day. Walter Kluge was elected manager of the oil station and took the position Wednesday.

The reports show that last year was a very prosperous one for the company. Twenty-two carloads of kerosene, gasoline and oils were sold.

Last year the company ran one truck with a 600-gallon tank and this

year they will run the 600-gallon one for the long trips and a 300-gallon one to take care of the local business. A third may be put into operation by fall. They hope to put on another one before fall.

EASTER CANTATA IS TO BE REPEATED ON SUNDAY

Kaukauna—The Easter cantata "From Death Unto Life" which was presented Easter Sunday evening in First Congregational church by the choir will be repeated Sunday evening by request. Following urgent appeals from members of the congregation, the church voted to devote Sunday evening's services in First Congregational church to a rendition of the Easter song. The cantata also will be sung Sunday afternoon for the patients at Riverview sanatorium. Members of the choir will begin at 2 o'clock at the suburban station and will take the \$25 car to the sanatorium.

The personnel of the choir is as follows: sopranos, Misses Thelma Durkee, Hildegard Regenfuss, Gladys Merrens, Gladys Webster, Florence Merrens; alto, Misses Helen Laudert, Flora Seifert, Alpha Merbach and Lucille Look; tenors, C. S. Webster, M. T. Traus, L. E. Webster, K. A. Newton; baritone, Albert Laudert; bass, E. E. Zekind, E. J. Nicholson and Carl Swedberg.

A rehearsal of the choir will be held at 1:45 Sunday afternoon in Congregational church.

WARMER WEATHER PUTS BIG STRAIN ON LUMBER PLANTS

Mills Look For Increase In Business During Coming Weeks

Retail lumber trade, which has been unusually good throughout the winter season, is showing further expansion under the influence of warmer weather and the eagerness of builders to get their jobs started, says the American Lumberman, Chicago. Many retailers continue to hold back in making commitments, either because of uncertainty as to how far the present building movement will run or because of the price question, and wholesale trade is dull in spots. Lumber distributors, however, look for a general entry into the market by the retailers during this month, and the mills are clearing their stocks as best they can in preparation for a big increase in business shortly.

The market meanwhile holds firm. Transit cars have been in heavy demand during the last few weeks and have been well cleaned up, with the result that prices on them have moved higher. The mills are still heavily overbooked. Though they have lately made some progress in reducing their old order files, they still have enough business on their books to keep them running at normal from thirty to sixty days. Mill stocks have been only slightly, if at all, improved, and it is still difficult to place orders, especially if they are of a badly mixed character. Industrial trade holds up very satisfactorily, and is expanding in some channels. Railroads are on the market for vast quantities of repair and construction material, and have placed further orders for rolling stock. The oil fields are scenes of activity and their consumption of timbers and general construction items is large. Automobile, furniture, flooring and interior trim manufacturers remain heavily on the hardwood market, while miscellaneous consumers' requirements aggregate a sizable volume. Exports of both softwoods and hardwoods are increasing. The position of the lumber market is therefore very strong fundamentally, and no material weakening on any popular item can be expected at this time.

Lumber production in the south has been adversely influenced by unfavorable weather, a shortage of box cars and also of labor. Output of Douglas fir is well maintained on a high level, but continues to be exceeded by both shipments and orders.

Immediate Outlook For Business Is Declared To Be Best For Many Years

Babson Paints Rosy Situation—Shows Increase In Exports Due To Ruhr Invasion—Idle Congress Helps Also

Wellesley Hills, Mass.—Roger W. Babson is very optimistic on the immediate outlook. Since returning from his inspection trip, he has been going through the mass of reports and figures which accumulated on his desk during his absence. These statistics are even more encouraging than he had anticipated.

"American business has certainly waked up," according to the statistician. "The Babsonchart showed nearly 4,000,000 men out of employment a year ago. Today it shows practically no unemployment. Where the blast furnaces were then being banked—new furnaces are now being started and premiums are being paid for prompt steel deliveries. The copper industry is showing activity for the first time for several years and many of the miners have been given a wage increase of 50 cents a day. Building is still booming and the 1923 figures will exceed any previous year, notwithstanding the big volume of 1922."

RAISE WAGES

"The most remarkable change in sentiment I find right at home here in New England. A year ago the mills were cutting wages and great numbers of workers were out on strike. Today the mills are working overtime and the largest concerns are advancing wages. Of course, this is an unhealthy sign for the long pull because it is due only to the artificial barrier on immigration. On the other hand, increased wages are a great temporary stimulus to trade. The purchasing power of many cities is simply the total of these cities' pay-rolls. Increasing wages in New England's mills of 12 1/2 per cent, increases

we are shipping coke to France and Germany. Japan, which had ordered great amounts of steel from Ruhr mills, is now turning to the United States. Europe, which last year had turned again to production, is now busy playing politics and watching the exhibition of a war peasant staged in the Ruhr valley. While Europe is indulging in this luxury, she must eat and live. Hence, Europe and Germany are again buying goods in America. The export figures to be issued shortly by the department of commerce, will clearly show. How long this situation will last, no one can tell; but it is helping us here in the United States.

"Spring business is also being increased by the belief that congress will not be in session again until December and then for only a short session. Whatever the motives of our politicians may be, the fact remains that they are a great drag on the prosperity of America. Under our present system of government the only reason we have any prosperity is because of our tremendous natural resources. Our forests, mines, fertile fields, and other great gifts of God enables us to afford to indulge in factional legislation and political logrolling as a pastime. Hence, when we cease this selfish game for nine months, business almost always piles up. Certainly this is one of the chief causes for optimism today.

"I am very hopeful for immediate business," concluded Mr. Babson, "as the robins come back and the trees leaf out business will be good, and all of us prosperous. I only add—let us be sure not to abuse this prosperity, or the Babsonchart, which now stands at 4 per cent above normal, will quickly drop back."

JANET

(Continued From Our Last Issue.)

JANET TAKES UP THE STORY: "You forget," I told him, "you forget that I too—"

"Janet," he interrupted, "nothing that either of us could do, no penance we could undertake, would bring Ladbroke back to life. The widow has her pension, I have seen to that. For the rest, you must forget as I have forgotten."

"I killed him, Norman," I faltered. "I have killed men myself in my day," he replied, "and I shall probably kill Michael, if he is still alive, before our accounts are finally settled. That affair does not concern us any longer. You acted on a momentary impulse. You were protecting the man whom you fancied, at that time, you cared for."

"I was doing more than that," I told him. "I was avenging myself. I was a stupid girl in those days—but I had ideas. No man had ever kissed me upon the lips. He took me unawares. If I had the weapon in hand then, I should have killed him without any other thought."

"I saw a look almost of content in the face of the man I loved."

"I always guessed that there was something of the sort," he said. "The immediate question is, when are you going to marry me?"

"I suppose I was weak, but all women are weak when the man they care for pleads. Just as I was, in my shabby clothes, we went out to a restaurant in Soho and dined. All the time we made plans, or rather he made plans and I listened. My long struggle was at an end. We were to be married almost at once, to travel for a time in Italy, Egypt—all the places I had longed to visit—and afterward to settle down in the country and farm."

There were crowds of people at the house in Southwell Gardens where Norman's sister was giving a reception for us after the wedding. Everybody was wonderfully nice to me, and I made new friends at every moment. Just as I was warned that it was time for me to go and change into my traveling gown, an uncle of Norman's, a Mr. Harold Greaves, asked me to show him the pearl necklace which had been Norman's present to me. I took him at once into the little room where the wedding gifts were set out. There was a small gathering of guests there, nearly all of whom were known to me. At the far end of the room seated in a chair apparently taking little interest in the proceedings, was the detective who had come from Scotland Yard to watch over the jewelry.

"I know that you have only a moment to spare," Mr. Greaves said to me. "I will just look at the pearls and be off."

I pointed to where the necklace was lying in its case. My companion glanced downward, frowned, adjusted his eyeglasses, dropped it and turned to me with a little smile.

"Quite a beautiful precaution," he observed, "but was it necessary with a detective in the room?"

"I don't understand," I told him, a little bewildered.

"The substitution of the necklace," he explained.

I leaned down and felt a sudden thrill of apprehension. The necklace, which was pinned around his sitting or were again was one which I had never seen before.

I called to the detective.

"My pearl necklace has been taken within the last half hour," I exclaimed. "This is a imitation one which has been substituted."

The detective first closed the door and then came back into the room. Besides myself and my companion, Mr. Harold Greaves, there were present a very charming and called Beatrice Kindersley, a great friend of Norman's, an elderly lady, Mrs. Phillips, and a slim, soldierly looking man who was a complete stranger to me.

"Then my sister," I exclaimed, "this is very distressing. A great many people have passed in and out during the last half hour."

"It is only within the last three minutes," the detective said, "that I have moved to the farther end of the room. May I ask, Lady Greaves, if everyone here is known to you?"

"Miss Kindersley, certainly," I replied, "and Mrs. Phillips. I don't think I have met you, have I?"

I added, turning to the man.

"He looked at me with a rather peculiar smile. I cannot say that he actually reminded me of any one, yet something in his appearance, filled me with a vague sense of uneasiness."

"I fear that I have not yet had that honor, Lady Greaves," he answered quietly. "Your husband, however, is an old friend. My name is Escombe—Colonel Escombe of the Indian Army."

"If you are unknown to Lady Greaves, I must ask you to remain until Sir Norman arrives," the detective said.

Beatrice Kindersley, who had been

standing looking on, suddenly began to laugh.

"Poor Colonel Escombe!" she exclaimed, passing her arm through his. "Why, he is one of Dad's old friends. He hates weddings and functions of all sorts, but I persuaded him to come here with me because he had met Sir Norman in India once. Please, Lady Greaves, may I take him away? We promised to call for Dad at his club, and we are half an hour late already."

The detective was obviously disappointed. I murmured something conventional and shook hands with both.

"I may be permitted, although a comparative stranger," Colonel Escombe said as he bent over my finger, "to wish you all the happiness which I am sure you deserve."

"They passed out, without any undue haste, laughing and talking to one another. The detective hurried away, on the track of some fresh inquiry. I moved back, urged by some irresistible impulse, to the case where the imitation pearl necklace was lying. For the first time I noticed a little label attached to it. I turned it over and read two words, written in a familiar handwriting: Michael's Gift."

Suddenly Norman came hurrying in, already changed into a gray tweed traveling suit. He thrust his arm through mine and swung me toward the door.

"Janet dear," he said, "you have exactly a quarter of an hour."

"One question, please," I begged. "Did you ever know a Colonel Escombe in the Indian Army?"

"Never in my life," he answered. "I saw the detective hurrying toward us and I clutched Norman's arm."

"Norman," I whispered, "supposing the necklace—"

"Well, dear?"

"Supposing it was stolen?"

His grasp on my arm tightened.

"I shouldn't care a hang sweet heart," he whispered, "so long as we catch that train in half an hour and I have you all to myself for the rest of my life."

MICHAEL RESUMES:

The greatest genius in the world cannot foresee all contingencies. It has always been my practice to leave something to Fate. How on earth I was going to get out of the house in Southwell Gardens, if the theft of the necklace were discovered before I could get away by natural means, I had been quite unable to decide. Fate, however, settled the matter for me. I left with living colors, rescued by a girl with the steadiest eyes, whose lips had smacked at danger on the principle of the Foe's Dog Dom.

"Where to?" she asked, as we took our places in her automobile.

"To the British Museum Tube, if you can take me so far," I answered. She gave the order to the chauffeur through the speaking-tube. Then she leaned back in her place. Her expression puzzled me.

"You are unhappy," she ventured. "I am unhappy," she answered. "You regret your intercession?"

She shook her head.

"It is not that. You stole the pearls."

"Of course I did," I admitted. "You are a thief!"

"I never pretended otherwise," her eyes filled with tears. "I will give you that credit," she confessed bravely. "Can I—would it be possible for me to buy the pearls from you?"

"For what purpose?" I inquired.

"To return to Lady Greaves, of course. Don't you see that I am partly responsible for their loss?"

"My dear young lady," I said earnestly, "the pearls are yours, with pleasure. I took them because the dramatic side of the theft appealed to me. Sir Norman Greaves and I are old enemies. He has hunted me, an old man can hunt man. His wife is an old acquaintance. It flattered my vanity to attend the reception unopposed and to hold myself to his wife's pearls. Allow me."

I took off my silk hat and laid it upon the opposite seat. Then I pressed my hand gravely over my hat, pressed down the top of my skull and handed her the necklace. She looked at me with her eyes wide open in wonder.

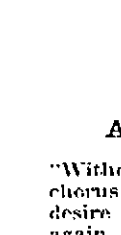

"I appreciate your surprise," I told her. "As a matter of fact, this false top to my head is one of the most ingenious things my friends in Paris ever made for me."

"The car pulled up outside the Tube station. The girl laid out her hand and I thought that you are a very terrible but a very wonderful person," she said. "Anyhow I like to think that I have paid a part of my debt."

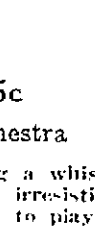

The madness had me in its grip. I lifted her fingers to my lips. I laughed in my soul because she made no effort to withdraw them.

"The whole of it is paid," I told her as I turned away.

ZWICK FACES TOUGH OPPONENT IN BART; EISCH TO BATTLE

Appleton Scrapper Draws Murray For Six Round Contest In Oshkosh

Oshkosh—The Oshkosh Athletic association has arranged a boxing card for Friday, April 20, that promises to be a hummer. The fistie fraternity has long been clamoring for a fracas in which Jack Zwick, Kaukauna, would play the star part and that demand is at last to be satisfied.

Johnny Bart, Chicago, who has been matched to fight him is an unusually clever youngster and should give Zwick a tough battle. He won the welterweight championship of the Thirty-third division during the war and defeated nineteen opponents in doing it. He is one of several clever boys who are working at Fornaciari's gymnasium at Chicago under the management of Leo Fornaciari. Mr. Fornaciari is also manager of Jabber Young and Nichols who recently defeated Zwick. Bart has had a wonderful season and has a long string of victories to his credit. Included in that number are some of the best fighters in his class in the entire country.

Never in his career has Zwick been in better condition than he is today and this sets him to be one well worth seeing. The other bouts on the card will prove equally interesting to the fans. The boys are evenly matched and should furnish plenty of entertainment to the followers of the squared circle. In the semi-windup Johnny Stevens, Oshkosh, will clash with Bud Allen, Fond du Lac. Jack Murray, Oshkosh, and Frank Eisch, Appleton, will lock horns in a six round contest. Ed Hoffman and John Hopfinger, both of this city will box in the opening preliminary.

George Duffy is slated to handle the fight and Tom Ryan will act as time-keeper.

Already there has been a brisk demand for tickets both locally and from out of the city and indications are that the card will be staged before a capacity house.

YESTERYEARS IN SPORTS

TEN YEARS AGO, on April 14, 1918, Joe Mandott, retired boxer, announced he would go into business. No benefits necessary for Joe, he said. He saved his money.

TWENTY-FIVE YEARS AGO, on April 14, 1890, Lizzie Giam of Berlin lowered the world 10 minutes bicycle record of 4 hours 41 minutes and 15 seconds, to 4:22.15 in the six-day bike race at Springfield, O.

APPLETON BOWLERS LAND IN MONEY AT NEENAH

In an attack on the wood Friday night on the Valley Inn alleys, Neenah, George Jimos and William Groth gathered up 1,224 pins for about fifth position in the open tourney conducted at the Twin Cities. Games of 258, 232 and 191 gave Jimos a total of 681. Groth picked up 543 pins. Other Appleton combinations tallied scores below the money mark.

BASKETBALL RULES ON FOUL THROWING UNDERGO CHANGES

Player Against Whom Foul Is Called Must Take Free Throw

New York — New rules governing basketball, the most important one eliminating the specialized foul shooter, were adopted at a meeting of the joint basketball rules committee attended by representatives of the Amateur Athletic union, the National Collegiate Athletic association, and Young Men's Christian association.

The rule affecting the specialized foul shooter prescribes that when a personal foul is called against a player the man against whom the foul is called must take the free throw.

Technical fouls are to be shot by any member of the team.

During the last season when a personal foul was committed within the goal zone two fouls were called, regardless of the ball. The new rule states that two free throws will be granted only when the player has the ball in his possession within the goal zone, or when the player is in the act of shooting for a basket outside of the goal zone.

SPORT VIEWS AND NEWS

Beloit should have a healthy ball team this season because the collegians from Fairland have five "Does" in their line up. But all joking aside, Coach Tommey Mills is counting on a winner on the diamond. Nearly all of last year's veterans are back in camp and there is a raft of promising new material with which to fill the gaps. Maybe the Beloiters will be called the M. D.'s this season.

Jack Zwick, the Kaukauna battler, is going to make up for lost time during the next few weeks. April 20, Zwick is booked for an encounter in Oshkosh, ten days later he fights in Green Bay and shortly after that scrap with Conley, he probably will be seen in action in Appleton. Evidently Jack is keen to fill up the family purse before it is time to lay idle during the vacation season.

Babe Ruth isn't connecting and the sport scribblers who have followed the slacker during the spring season are turning out yards of copy about Bambino and what is wrong with his whiplashing stick. It is hard to solve Ruth's ailment. He is in better physical shape this spring than ever before but for some unknown reasons he doesn't seem able to hit 'em on the nose. At that the slump is probably worrying Ruth more than anybody else.

France is making plans for the Olympic games which will be staged in Paris next year. The French athletic commission is doing everything possible to place a creditable team in the world wide competition and one of the newest stunts is a sprinters' school where Rene Mourlen, the Frenchman's chunder scion is the instructor. Some two hundred athletes are going through a course of sprouts each day.

Fred Fulton is having a whole lot to say about nothing down in Gotham. The heavyweight boxer is hurling challenges right and left and incidentally looking no chance to verbally run down Johnson, Willard, Firpo and all the other contenders for Dempsey's crown. We can't see where Fulton has much license to talk because he has received more than his share of fistie reversals in his day. What's more we don't think he could set the world on fire right now.

HOPPE TAKES THIRD MATCH FROM PINDLE

Wise in the ways of the ivories through years of experience, Francis Hoppe, sensation of the trick billiardist, and all around player, defeated Harold Pindle, state amateur pocket billiard champion, in their third match, 150 to 109, thus giving Hoppe two out of three games. The contest was staged Friday night in the Carr & Hansen billiard room. In the afternoon Hoppe also won, 30 to 24, in the three cushion carom billiard contest. In the pocket billiard match with a high run of 21 with Hoppe's best was 23. A. Elmslie, state amateur balling billiard champion, is scheduled to be an Appleton visitor Tuesday night at the Carr & Hansen room. He will play a 200 point match with Eugene Carr, which will be followed by a 25 point three cushion carom battle.

Doing Well

LOUIS ROSENBERG

From the sand lots of San Francisco to playing against the world champion New York Giants, in the space of less than a year is the unusual experience of Louis Rosenberg.

Rosenberg was picked up by the Chicago White Sox, merely as a prospect. The failure of Eddie Collins and Ernie Johnson to report made it necessary that Gleason use some of his subs in the first spring meeting between the Giants and White Sox.

Rosenberg played like a veteran in the field and came through with three hits. Whether or not the youngster is retained throughout the season, it is certain a string will be tied to him for fall delivery.

WIN SECOND PLACE IN WOMANS TOURNEY

By shooting 873 the team made up of Mrs. A. Jensen and Miss Mary Johnson, went into second place in the doubles of the Arcade tourney of the Womens club tournament. The score was rolled Friday and completes the shooting of the tournament of the Arcade division of the club league.

In addition to winning second place the team carried away the honors for the best three games of the tournament—a score of 502 by Mrs. Jensen. Her individual games were 152, 178 and 172. Miss Johnson shot 229, 101 and 128. Together with 23 pins allowed as a handicap Miss Johnson's total was 371. The 873 mark is 5 pins better than the score rolled by Misses Reinke and Wilson, who were second until Friday.

Beginning Tuesday the Eagles teams will open fireworks on the Eagle alleys.

PIERCE GATHERS 748 PINS IN THREE GAMES

Neenah—In a recent match game in the intercity bowling tournament being held on the Valley Inn alleys, the high three-game scores record for the alleys was broken by Wallace Pierce when he registered a total of 748 for the series. In the second game Pierce made ten straight strikes and fell down on the eleventh frame, making a score of 258. His other scores were 217 and 273. The match was rolled with P. Borenz who failed to connect with the maples. However the duo rolled a complete total of 1,260 for second place in the tourney.

Pierce and Drnhelm, Pierce and Weissgerber are tied in the double event for first place with 1,238.

MITCHELL WINNER; CRITICS DISAGREE ON NUSS-EMKE TILT

St. Paul And DePere Lads Split Ranks Of Writers In Making Decision

By Associated Press
Milwaukee—Pinkie Mitchell, Milwaukee, junior welterweight champion boxer, defended his title Friday night against Harvey Thorpe, Kansas City and was given the unanimous newspaper verdict.

The Milwaukee boy was credited with practically every round. Thorpe was staggered by Mitchell's right and left hooks to the jaw in the third, fifth and sixth rounds, and outpointed the western boy in the other periods. Thorpe's best showing was in the second round when he shot his left to Mitchell's jaw and in the third a hard right to the body. Thorpe was warned for hitting low early in the contest and kept the referee busy because of hanging on tactics.

Sporting writers disagreed as to the winner of the semi-windup between Billy Emke of St. Paul and Jimmy Nuss of DePere, some crediting Nuss, others Emke and at least one called it a draw. Emke scored a knockdown in the first round but Nuss was the aggressor throughout.

Training Camp Tips

Kansas City—Kansas City, (A.A.) 8, Chicago (N.Y.) 7.
Wichita Falls, Tex.—St. Paul (A.A.) 5, Wichita Falls, (T.L.) 2.

Cincinnati—Despite the fact that directors of the Cincinnati National league baseball club insisted they did not recede from their position there remained among local fans Sunday the hope that the Eddie Jough controversy would be settled and very shortly.

Virtually the only barrier remaining was the matter of a fine of \$50 a day, imposed by the club, for each day the player had absented himself from the training camp, the holdout having receded from his original demand for a salary of \$25,000 a year, and agreed to sign for \$16,000.

The club's proposed contract calls for a salary of \$15,000.

New York — The White Sox and Giants were scheduled to play the last pre-season games together Saturday and Sunday at the Polo grounds. The Sox have the edge on the series so far 7 to 6 wins. To win the title the Giants must cop both. Ray Schalk, who sprained his ankle recently, was rounding into form and may take part in Sunday's contest.

SIELAFF WINS

Eau Claire—Joe Sielaff, Milwaukee, decisively outpointed Red Blanchard Minneapolis, in a ten round bout here Friday night. They are lightweights. In the semi-windup Mack McCure, Augusta, Wis. knocked out Jimmy Quinn, of Minneapolis in four rounds.

200 ENTRIES IN ARCADE TOURNEY

Pocan Homesick; Would Like To Pitch Ball For Appleton Baseball Team

Clarence "Squaw" Pocan is homesick.

"Squaw" who is in the south somewhere with the Milwaukee Brewers but who is scheduled to go to the Shreveport, La. club, would like to pitch once more for Appleton.

IMPROVED, HE WITES

Pocan writes that it is possible for him to get Otto Beckert's consent to be placed on the retired list for a year and if that wish is granted he will tie himself to Appleton, providing Sylvester is willing to make an interesting offer. Pocan salary in the Shreveport club would be something like \$350 or \$350 a month for every day ball but he wants this figure boosted. He thinks he is worth it, he writes to Sylvester, because he says that he has improved some and even acquired a new trick ball which he describes as the screw ball.

"Squaw's proposition is impossible," said Sylvester. "I'll be glad to give him a chance but we can't pay him any more money than we would pay any pitcher in the vicinity. Pocan will have to show the goods when he gets back before we can talk terms to him."

HAS POSSIBILITIES

Sylvester advised the Kimberly youth last year that he should refrain from going with any of the bigger leagues. Sylvester contended that the pace was too much for as young a pitcher as Pocan was. (He was only 18 then.) Under careful and personal supervision Sylvester believes that Pocan can be developed into a major league twirler.

In the meantime the Papermakers are going ahead with plans for the opening game at Menasha May 6 and the first home battle here a week

thereafter. L. E. Blackburn, the Michigan right hander is expected to arrive here a short time before the opening game to get acquainted with surroundings and teammates.

MCGILLAN OPTIMISTIC

Green Bay — "Baseball will boom in the Wisconsin State league this season," stated President T. E. McGillan, who was in the city on Wednesday for conferences with the Green Bay magnates.

"Possibly, I am too optimistic," said the league president, "but from all reports available we are going to have a banner year of baseball. Every spoke in the eight club wheel is showing pep galore and there is no end of interest being displayed by the fans throughout the circuit."

SCHEDULE SOON SETTLED

"As yet, we have not fully settled on our schedule but the outline of games will be ironed out within the next few days. Weather conditions permitting, we will swing into action on Sunday, May 6."

President McGillan said that every team in the circuit was lining up the best players possible and that when the lid was lifted the baseball colony would be treated to some banner exhibitions of the national pastime.

MEETEN MAX PLAY AGAIN

According to baseball club officials, there is a possible chance that George Metten can be induced to put on a uniform again this season. Metten has entirely recovered from his injuries received last year in the Green Bay-Menasha fracas at the Fall City. It was thought that the sterling shortfielder was through with the game for good but the call of the wild hit him again this spring. Metten was as good a shortstop as ever coveted on a local diamond and the fans will welcome his return if he can again be persuaded to don the spiked shoes.

KETTENBELL TO PITCH

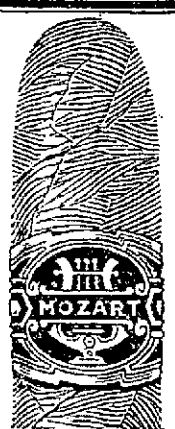

Marinette, Wis.—Manager Jim Bres-

nahan, of the Twins, is rounding up his squad, but announcement of the selected personnel cannot be made until after one of two more meetings of the directors. There are about 49 candidates for places on the Twin lineup at the present time, and from these Bresnahan hopes to pick a squad that will maintain the splendid past reputation of the twin cities on the diamond.

Flannigan, an outfielder already signed, was in Menominee the other day looking over the ground as was Elmer Sberbarth, member of last year's squad who may be seen in a

Twin uniform this season if he doesn't sign with Green Bay.

"Lefty" Kettenbell, port side twirler signed up by Bresnahan, is training in the south and will be in fine condition when the season opens in Menominee on Sunday, May 6. Kettenbell is owned by the Brewers, but he will play with the locals until called in. Draz, who seems to pitch better ball every year, will probably be one of the heating staff, and with others that are now under consideration, the Twins will be well hooked up for mound men.

JEWETT SIX PAIGE BUILT

\$995
f. o. b. factory

Driven member of clutch weighs less than 3 1/2 lbs.

Why Jewett never "stalls," "jerks," nor clashes Gears

YOU can change gears in a Jewett as fast as you can move your hand—or as slowly as you please. No "clash" is heard—and you never "miss." You can even drop from "high" to "second" at 30 miles an hour. Let up the clutch pedal as fast as you can move your foot, and Jewett neither jerks nor kills its motor.

Such superb handling ease comes largely from the new Paige-type Jewett clutch. Its driven member weighs less than 3 1/2 pounds, one-third the usual weight. So it stops spinning instantly—adjusts itself to speed changes quickly—helps you change gears. And the six clutch springs instead of one, and twice the friction surface of the ordinary clutch, give the smooth, gradual engagement which prevents jerking or motor stalling. Please try Jewett's ease yourself.

GRIN AND GAT SHIELD WOMAN DEPUTY SHERIFF

Wellsburg, W. Va.—Deputy Sheriff Mildred Evangeline Stephens, assistant turnkey of the Wellsburg jail, is armed with two weapons.

Her smile and—

The 32 revolver she always carries in her shoulder holster.

And nary a prisoner has tried to escape since she took office.

Perhaps she looks a trifle too dainty to be rough with husky prisoners, but other deputies at the Wellsburg jail say Deputy Stephens has just as much control over the county's guests as anyone in like position.

Ever since her husband, Sheriff J. W. Stephens, took office, Nov. 7, 1922, West Virginia's only "gun-toting" deputy has reigned as chief assistant to John Ralston, Sheriff Stephens' bookkeeper. On many occasions Deputy Stephens is alone in charge of the jail.

More than 200 prisoners passed through the Wellsburg jail in the course of a few months, recently having been arrested for complicity in the miners' armed march at Cliftonville July 15, 1922, and for having been in the party which slew H. H. Duval, Sheriff Stephens' predecessor.

**20 MILKING COWS
BRING AVERAGE OF
\$120 EACH AT SALE**

Unusually High Value Is At-
tached To Animals At
Plymouth Sale

Holstein breeders in Outagamie co have manifested keen interest in a sale conducted within the last week by the Plymouth Canning company at its farm near Plymouth. Thirty grade Holsteins were sold at prices that are said to be unprecedented in recent years.

An average of \$104.53 was received for 30 head, which, however, included eight heifers, not due until next fall and two grade bulls.

The sale included 20 milking cows, which sold for an average price of \$120 each, which is an exceptionally good price to receive for grades. These all sold for over \$100 each. The animal which sold for the highest price brought \$165, an exceedingly good price for a grade cow.

The eight heifers sold for an average of \$72 each. This can also be considered good in view of the fact that none of them are due to freshen until next fall.

The two bulls sold were for \$50 each. The milking cows in the sale were all fresh, except four, which were due to freshen soon, although some of the fresh ones had already been milking for as much as two to three months.

This sale is a demonstration of the strong demand there still is for grades. Farmers and breeders with in the last two years seem to come to have reverted to grades, due to the fact that since pure bred command more money and money has been comparatively scarce during this period, farmers seem to have made up their minds to retain the grades for a few years longer until conditions have improved.

ON THE SCREEN

BRENDA FOWLER DEBUTS IN "MONEY, MONEY, MONEY"

One of the very best writers of one act plays known to the profession appears with Katherine MacDonald in "Money, Money, Money," which is now showing at the Elite Theatre.

Brenda Fowler, who is a graduate of the stage where she took a schooling that covered many years, discovered her ability as a composer of plays and bid the stage a fond farewell.

Having been firmly established in her new profession, Miss Fowler, decided to give up acting. Writing plays was far more lucrative than portraying "heavy" roles.

It was watching Miss MacDonald at work on one of her earlier First Na-

tional pictures that Brenda Fowler became fascinated by the newer art of acting. Tom Foyman who was directing the picture at the time interviewed her on her resuscitated desire to act and audiences this week have an opportunity to see Miss Fowler in her screen debut.

"Money, Money, Money" was written especially for Katherine MacDonald by Larry Evans. A list of prominent players appear with the story. Jack Dougherty, who was discovered by Miss MacDonald, fills the role of leading man, and Charles Cary, Carl Stockdale, Frances Raymond and Margaret Loomis round out a very imposing cast.

MANY WONDERFUL SCENES IN "OMAR THE TENTMAKER"

"Omar the Tentmaker," which is scheduled to start a 4 day engagement at the Elite Theatre on Monday has been hailed as the screen's most colorful offering. Guy Bates Post is the star of the picture, which was produced by Richard Walton Tully and is being released as a First National attraction.

There are some of the artistic settings is contains: A rose garden, with fountains spilling in the silvery moonlight; poetic youth and a beautiful maid; The streets of golden Naishapur, bustling with pilgrims, natives, vendors of everything imaginable, caravans of camels, bands of Bedouins on Arabian steeds—and beggars! A cavern with bibulous youths roistering in the unmemorial manner! The mystic Temple of Zoroaster, its altar looming up in the semi-darkness of the interior, its minarets where the muezins chant their call to prayer! The gardens of

the Governor, with slaves who carry out his slightest wish, for his wish is law! The dungeon cells—"the home of ten thousand shadows"—in which the doomed await their execution, or the far greater dread of torture! The potter's shop, emblematic of the seat of the Maker of Mankind, and the clay on the wheel as the clay in his hands! The halls of the mighty Shah of Shahs, whose wealth can buy for his leering senility even the fairest flower of all Persia! The study of the philosopher-

port, Omar, the Tentmaker, son of an artisan father, whose manifold talents compose the eternally beloved quatrans and invent a practicable scientific calendar—a room where scrolls of verse mingle with astronomical instruments!
